

L. L. Dickman House

November 5, 2005

Written by Adela Arellano

The picture above is the L. L. Dickman House. It is well cared for by RCMA. They were kind enough to give us a tour of the house.

The name of this beautiful historic building is the L. L. Dickman House. The L. L. Dickman house was built in 1910. The address of the L. L. Dickman House is 416 U. S. Highway 41 South Ruskin, Florida 33570.

The L.L. Dickman house has an attractive picnic table in front of the building and the it's color is pink and white. The home has a high balcony on the side of the house. The building currently provides space for church services. The house has a sun room on the left side of the house. The color is soft peach and it has about 36 windows total. The house has three floors and two beautiful palm

trees along the steps.

The L. L. Dickman house was built as a residence of Mr. L. L. Dickman and his family. It has become the main building for the RCMA. There are lots of offices located in the building now.

The house was built for Mr. L. L. Dickman and his family to live in 1910. The house looks like a prism. It is warm a peach color now. The house is a rectangular shape.

There are many attractive plants, signs, palm trees, a picnic table, and bushes. The neighborhood around the L. L. Dickman house is attractive. It is located in downtown Ruskin across from the Chamber of Commerce and the Lyle Dickman House. The house is used for the RCMA which stands for The Redlands Christian Migrant association and has a lot of offices. This house is important because the people who made this house are historic people of Ruskin.

The out standing features of the L. L. Dickman house are sweeping gables a sloped roof, uncluttered lines, and casement windows. also it has substantial features of Arts and crafts style architecture.
