

## **The Willis House**

**November 5, 2005**

**Written by David Hernandez, Jose Walle, and Nicholas Minchew**

*The photo above is the Willis House on West Shellpoint Road. It is currently an upscale eatery and an ice cream shack. We visited the ice cream shack and it was delicious!*

The name of this building is called the Willis House. The land of the house is very beautiful and attractive what made beautiful was the trees flowers and grass.

The year that Willis House was built was in 1925. It is 80 years old!

Even though the house is 80 years old it looks brand new from the outside and the inside. The Willis House has lots of decorations inside and around the house.

The address of the Willis House is 102 West Shell point Road Ruskin, Florida 33570.

The house was built around 1925 and was home to the Willis family. Today it is the business location for the Ruskin Bay Company, an upscale eatery.

The description of the inside of the structure is that they have lots of designs of sea. Some of the designs are like lighthouses, bamboo and skles. If you want to go visit it The Willis House is located across the street from LA Casita Mexican Restaurant.

It is important to save and preserve historical buildings such as this. We should because other people could learn about them and how people lived back then.

Now the Ruskin Historical Society is letting people know about the homes, just go to their web site!

One of the homes that has delicious ice cream is the Willis House. They have lots of different kinds of ice cream at Gary's Ice Cream Shack which is located inside the Willis House.

The Willis House is very colorful. It is a very attractive building located in downtown Ruskin.
